

# Urology and Endourology Centre

泌尿及腔內微創  
泌尿外科中心

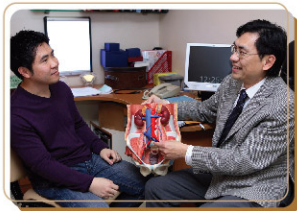

## Introduction

The Hong Kong Baptist Hospital's urology service is provided by a team of experienced urologists and nurses. The establishment of the Urology & Endourology Centre is aimed at further enhancing the standard of care and providing the state-of-the-art facilities and expertise for maximizing patient's comfort and convenience.

## Scope of Services

### Urodynamic Services

Patients with voiding dysfunction or lower urinary tract discomfort will benefit from this detailed functional investigation.

### Full Digital Flexible Urethrocystoscopy

Patients will benefit from the excellent image quality for examination of the bladder with comfort and convenience from the small-sized flexible endoscopy.

### Transrectal Ultrasound of Prostate Services

The advanced Synchronous biplane ultrasound provides excellent images and makes biopsy more accurate and faster, and thus it can improve patients' comfort and acceptance.

### Ambulatory Urological Surgery Services

Circumcision, urethral dilatation, insertion and removal of suprapubic catheters previously required hospital admission and performed in operating theatre can now be carried out in the new centre. Other procedures such as percutaneous nephrostomy, double J stents, and investigations like cystogram, retrograde pyelogram studies are provided in collaboration with X-ray Department and Operating Theatre. Patients can enjoy the benefits of ambulatory care of shorter hospital stay and earlier resumption of daily activities.

### Others

With a dedicated professional team, the Urology & Endourology Centre also provides comprehensive service on urolithiasis management, urooncology management and services in minimally invasive and laparoscopic urological procedure.

My soul finds rest in God alone; my salvation comes from him.

【Psalms 62:1】
