

存放藥物須知

1. 藥物應存放在陰涼、乾燥及兒童接觸不到的地方。除特別指示外，一般藥物無須存放在於雪櫃內。
2. 如標籤上註明藥物需冷藏，該藥物應存放在雪櫃中(2 - 8 °C)，但切勿貯存在冰格內。
3. 不宜把藥物放在貯存食物或飲品的容器內，以免誤服。
4. 請把過期、已變質或剩餘的藥物棄掉。
5. 同一容器內應只存放一種藥物，以免混淆及誤服。

Tips for Medication Storage

1. Medication(s) should be stored in a cool, dry place where it cannot be reached by children. It is not necessary to put medication(s) in the refrigerator unless specified.
2. For medication(s) that requires refrigeration as specified on the drug label, keep them in the refrigerator (2-8 °C), but not in the freezer.
3. Medication(s) should not be stored in food or drink containers to avoid being mistaken.
4. Discard any surplus, expired or spoiled medication(s).
5. Do not mix different medication(s) into one single container to avoid confusion and misuse.
